

# MIGRAINE HEADACHES

Bio-Touch can effectively alleviate the pain and other symptoms associated with migraine headaches. No style of healing touch is considered to be a substitute for standard medical care. But, by using Bio-Touch as a complement to medical protocols, family members and friends can help one another to feel better, without being concerned about negative side effects. Lightly touching specific points on the neck, as well as other affected areas, have been shown to ease the symptoms relating to migraine headaches.

This workbook includes the basic sets of points that you would need to address this particular condition. If you have any further questions, please feel free to contact us.

This workbook is best used with the entire training manual which you can get on our website. The information presented in this workbook is for educational purposes only. Medical advice is neither offered nor implied. Consult a healthcare professional for medical advice.

# What is Bio-Touch™?

Bio-Touch™ is a simple, hands-on healing technique that can be used to address all types of health concerns. Associates use the first two fingers of both hands to lightly touch specific points on the body. Over time, the combination of correct points and light touch seems to enhance the body's natural healing ability.

- **Bio-Touch™ is easy to learn – even children learn & practice effectively.**
- **Bio-Touch™ is a complement to any healthcare program.** It may safely and effectively be used in conjunction with any standard or alternative practices you and your family may be using.
- **Bio-Touch™ has no levels of ability – everyone is effective the first time they touch.** No special talent, training or knowledge is required. The first attempt made by anyone should be as effective as that performed by an associate with years of experience.
- **Bio-Touch™ requires no special preparation, belief or state of mind to be effective.** Everyone can assist in the healing process. No particular philosophy, spiritual predilection, religious belief, mental or emotional state is required of the associate or recipient to facilitate or experience results. Bio-Touch has been practiced under a variety of circumstances without jeopardizing its effectiveness.

## Practicing Bio-Touch™

- **Wash your hands before every session.**
- **One person touches another.**
- **Begin every session with the Greeting.**
- **Use the first 2 fingers of each hand.**
- **Touch on the skin.**
- **Use a butterfly-like, light touch.**
- **Touch each point for 6-8 seconds.**
- **Can be practiced anywhere.**
- **More than one practitioner may work simultaneously.**

This manual is designed to make learning Bio-Touch™ as easy as possible. The name of the set, a diagram with numbered and lettered points and a synopsis of each set is on the left-hand page. On the right-hand page is a detailed description of how to locate each point, as well as photographs of many of the points. It is beneficial to watch the points being practiced on the DVD in conjunction with reading the manual.

Before beginning a Bio-Touch session, an associate should wash their hands, as skin to skin contact is necessary. It is recommended that the recipient remove the clothing above the waist to

allow access to the sets of points, but it is not necessary to remove the brassiere. After performing the *Greeting*, simply apply the sets of points necessary for the conditions being addressed. For example, an allergic reaction may be addressed by applying the *Greeting*, *Allergy* and *Sinus* sets; for a cut, bruise, or injury, perform the *Greeting* and *Local Work* around the affected area. If points are touched exactly as described in this manual, effects should be noted. Eliminating any of these points may hinder desired effects. While learning, an associate may wish to find on themselves the indentations, bones and ridges used to describe the points. When working with a recipient, however, touching in the general area within an inch or so of the point indicated has proven beneficial when no specific point can be determined. Regardless of the condition being addressed, an associate is encouraged to apply as many or as few sets of points as guidance provides.

*Keep in mind that it is only through the marvelous capacity of the recipient's own body to heal itself that any procedure is effective. An associate only acts as an instrument to enhance the natural healing process. An associate who wishes to pursue the procedures outlined in this manual is inspired to relieve distress and to be of genuine service to humanity. Yet, if only one other person is helped, an associate will achieve an understanding of a greater purpose in life than may have otherwise been experienced.*

# Terms Used In This Manual

An understanding of the terms used to describe the procedures outlined in this manual will aid an associate in learning to apply Bio-Touch™.

“Matching-fire”

“Through-fire”

“Cross-fire”

- The **“Associate”** is the person who performs the procedures in this manual. The term “associate” is used as a matter of convenience; however the dictionary describes the role of one who is inspired to pursue this work as: (1) one often in company with another, implying intimacy or equality, (2) one having an interest in common with another.
- The **“Recipient”** is the beneficiary of the procedures outlined in this manual.
- A **“Hold Point”** is when the first two fingers of one hand are held in constant contact with the skin while the first two fingers of the other hand move to touch other points or to sweep.
- **“Matching-fire”** indicates the process of simultaneously touching points which are symmetrical in relation to a particular area of the body. Examples are found in the *Neck*, *Metabolism*, and *Abdomen* sets.
- **“Through-fire”** indicates touching points on opposite sides of the body, either from front to back or from side to side. Examples of this are found in the *Abdomen* sets.
- **“Cross-fire”** indicates holding a point on one side of the body while touching points diagonal to the hold point on the opposite side of the body. Examples of this may be found in the *Sinus* and *Ear* sets.
- **“Sweep”** refers to a slow and deliberate movement of the first two fingers across a particular area of the body while the fingers maintain continuous contact with the skin of the recipient, such as in the *Shoulders* set.
- **“Local work”, “enhancements”, and “extra work”** refer to using any combination of “Hold points”, “Sweeps”, “Matching-fire”, “Cross-fire” or “Through-fire” in an area of the body where there is no specific set of points described. See the section on *Enhancements & Local Work* on page 28 for more specific instructions.
- Each **“Set”** of points is composed of one or more **“Steps”**. Each Step follows a particular sequence of points to touch. Once the associate has become proficient in touching all the points of a set, it is not necessary to always touch the points in sequence, but it is necessary to touch all the points in a particular set. A ministration or **“Session”** is the coming together of an associate and recipient to practice Bio-Touch™.
- **“Miss-fire”** occurs when the hands touch each other or cross each other, or when a procedure as described in this manual is not clear and explicit. If the hands do cross or touch, simply move the hands apart and continue the procedure. There is no need to start the session over again.
- **Metric equivalents:** Measurements are described in inches throughout this manual. One inch equals approximately 2.5 centimeters.

# The Greeting

The *Greeting* is always performed at the *beginning* of each session, prior to addressing any other area of the body. It seems to establish a harmony between the associate and the recipient.

Use dominant hand to touch both points.

Touch point 1.

Then touch point 2.

# Bio-Touch™

The *Greeting* is the only set of points which uses only one hand and the only set which indicates which hand the associate will use. The *Greeting* is performed with the *dominant* hand. If an associate is naturally right handed, use the first two fingers of the right hand to perform the *Greeting*. If left-handed, use the first two fingers of the left hand. If ambidextrous, pick one hand and use this for both points.

Point 1

- Wash your hands before every session.
- Begin every session with the *Greeting*.
- Use only ONE hand - your dominant hand - to perform the *Greeting*.
- Use the first 2 fingers.
- Touch on the skin.
- Use a butterfly-like, light touch.
- Touch each point for 6-8 seconds.

## Touch Point “1”

Point “1” is in the fleshy area just below the bottom of the breastbone, or sternum.

## Then touch Point “2”

Use the SAME fingers to touch Point “2”.

Point “2” is on the back approximately 1 to 1½ inches to the left of the big bone at the base of the neck. The big bone is shown as a ◇ on the drawing.

Point 2

*You are responsible for your actions. The procedures in this manual are employed to address the physical health and well being of the recipient. An associate is careful to assess their capacities and not interfere with the mind or attitude of the recipient. When confronted with any intractable problem beyond the scope of the associate, a competent specialist should be employed.*

# Neck

The *Neck* set may be used to address most headaches, neck pains, soreness of the upper back, and problems in the upper extremities, such as arm and hand problems.

In “Matching-fire” touch points “1” and “1”, “2” and “2”, then “3” and “3”.

Points 1 and 1

- Use the first 2 fingers of each hand.
- Touch on the skin.
- Use a butterfly-like, light touch.
- Touch each point for 6-8 seconds.

In “Matching-fire” touch points “1” and “1”, “2” and “2”, then “3” and “3”.

**Points “1”** are halfway down the neck on the side of the large muscles.

**Points “2”** are in the indentations beside the neck muscles at the base of the skull.

**Points “3”** are at the bottom of the neck on the side of the large muscles.

**These points may be touched repeatedly.**

Points 2 and 2

Points 3 and 3

*An associate should always proceed patiently and await the natural healing process to produce the results. The result of the procedures outlined in this manual is an “undoing” process which utilizes the recipient's biological processes to promote healing.*

# Enhancements & Local Work

Working on a scar

- Use the first 2 fingers of each hand.
- Touch on the skin.
- Use a butterfly-like, light touch.
- Touch each point for 6-8 seconds.

Enhancements and local work may be performed on any area of the body where extra attention is indicated through the presence of disease, pain, infection, rashes, broken bones, cuts, unusual growths, arthritis pain, or indications obtained through scanning and observation as discussed on the previous page. The area may be touched using various combinations of "Through-fire", "Matching-fire", "Cross-fire", "Hold points", or "Sweeps". An associate may also "Sweep" across any affected area or down the arm or leg of the recipient.

An associate may also address a local problem by holding the fingers of one hand on the affected area and with the other hand sweeping to or from the corresponding area on the spine, following along the outward and downward path of the nerves as they branch away from the spinal column. The diagram on page 10 indicates the approximate location of the areas along the spine that relate to specific organs and areas of the body. Feel free to simply touch whatever points guidance provides to help with each individual problem.
