

## CLASS #12

In this final lesson of this Certification Program, we ask you, as a certification candidate, to express yourself in your own words. The question we pose to you is simply:

**“WHAT IS BIO-TOUCH AND IFBM ALL ABOUT”?**

**YOUR RESPONSE**

In our very first CP class, one of the students, a retired CIA agent commented that he had participated in many revolutions, but never found one as powerful as what was happening with Bio-Touch because it is about love. He then went on to say, “There is one problem as the awareness and practice of Bio-Touch grows. How will the Foundation maintain the integrity of the teachings”?

Your response to the question we posed at the beginning of this lesson shows that we have done our job in presenting the integrity of the Foundation and Bio-Touch. Now the real question is, “How will **you** pass on the integrity and clarity of Bio-Touch”?

When you share Bio-Touch and represent the Foundation, it is vital to hold this integrity while being creative with your own personal expression. This is a key element in the teaching and presenting of Bio-Touch, which is a wonderful example of unity in diversity.

Why is Bio-Touch “A revolution of Love”? As you have learned throughout this training, the mission of the Foundation is rooted in the principle of “Love thy Neighbor.” This is a divine idea whose time has come. Remember, Bio-Touch addresses the body. When the body releases its stresses, pains and diseases, we have the opportunity to become aware of who we **really** are. Bio-Touch is profound. It is the gift of remembering that we are loved, cared-for and we are all connected.

As we look into future research of techniques like Bio-Touch, we need to remember that putting human touch under the academic microscope is somewhat like trying to analyze the human spirit. Something is lost when we endeavor to dissect and chart the essence of our whole being. It is vital that we not wait for the “research” to prove the effectiveness of the technique; we just need to do it and put love into action. Humanity is hungry for Bio-Touch. The time is now. If not now, when?

The vision of IFBM encourages people to take responsibility for their own healthcare. This is important as we begin to recognize that society has become dependent on a healthcare system that is perpetuating the need to follow their dogmatic protocols. Standard health care, as an art of medicine has its place. Bio-Touch, however, empowers people to know what they need and to work with their healthcare practitioner in designing a **personal** healthcare protocol.

People get better with Bio-Touch and without side effects. The longer you practice this healing technique the more you will recognize the powerful impact of Bio-Touch in your life and its unique relationship to your self-awareness.

The Foundation designed this Certification Program to give you a real sense of its mission and vision with the tools on ways to practice and share Bio-Touch. Bio-Touch is a world service. As the Foundation continues to build its web of love and service, we are here to support you as you join us in this effort. Presenting a unique idea to humanity is always a challenge. Bio-Touch is the most unique healing technique and our job is to help build your confidence in presenting Bio-Touch. Our commitment is to stay in contact with you via numerous avenues. These include web conferences, emails, phone conversations, Facebook postings, live streaming and the website JustTouch.com.

### **LET US KNOW HOW WE CAN HELP YOU.**

We are grateful to you for your commitment in pursuing and finishing these classes. Thank you for your desire to share Bio-Touch with humanity.

Congratulations! You have successfully completed the first step in becoming a Certified Practitioner. The Foundation now recognizes you as a GRADUATE PRACTITIONER and you will receive your certificate of achievement soon. We look forward to working with you as you complete your internship.
