Paul Bucky

A practical, compassionate influencer.

Bio Option #1

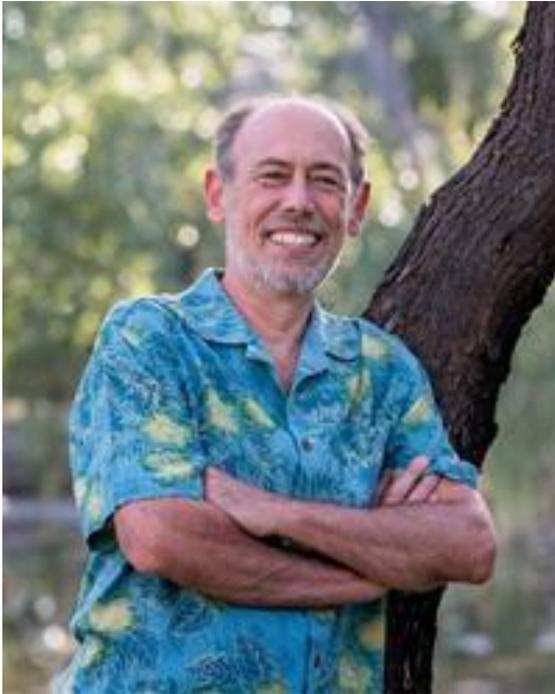

Paul Bucky is a practical, compassionate influencer. He is a businessman, student, teacher, organizer, healer, and a founder of the International Foundation of Bio-Magnetics, a non-profit educational foundation based in Tucson, Arizona.

Paul is a first generation Jewish man whose family escaped certain death in Nazi Germany in 1939. He was raised in the bosom of the privileged Jewish culture in Los Angeles. Although shielded from the knowledge of injustice in the world, by the age of 5 years old years old, he showed a deep understanding of suffering.

After graduating from college he left the world of materialism behind and began studying the mystical traditions of the world, became involved in numerous social movements and was led to investigate many holistic healing modalities. He would eventually meet the creator of the Bio-Touch technique and has spent the last 30 years dedicating his life to teaching and sharing it with humanity.

Bio-Touch is a unique touch-healing technique for all people because it is simple to learn and everyone who uses Bio-Touch is effective. There are no masters or gurus — everyone is equal. Bio-Touch is profound; it is the gift of remembering that we are love and are all connected. It is a Divine idea whose time has come.

I am writing this letter because you should have Paul Bucky as a guest on your show. Paul's interaction with you, I am sure, would generate an enthusiastic response from your audience for he is a practical, compassionate, influencer and entertaining speaker. There is a growing demand for these types of alternative & complementary techniques in people's healthcare. The International Headquarters of this organization is right here in Tucson.

The more I learn about Bio-Touch the more confident I am that our community and all of humanity needs to be aware of this profound option in healthcare.
